

CENTER PUNCH

PREFORMED HOSE CLAMPS

Strapbinder's double wrapped center punch preformed hose clamps are available in various materials and diameters to satisfy a wide variety of applications. Center punch clamps can be applied with automatic hose clamping machinery, the Strapbinder HBC-300 tensioning tool, or the F38 ratchet style application tool.

Ideal for most industrial hose clamping applications. Available in multiple diameters and 3/8" or 5/8" band widths, Strapbinder clamps can be ordered in stainless steel or high strength galvanized steel with heavy duty stainless steel locks.

INDUSTRIES

- Agriculture
- Oil and gas
- Mining
- Food & Beverage
- Chemical processing & refining
- Municipalities
- Construction

APPLICATIONS

Tank Truck Hose

PVC Discharge Hose

Rubber Air Hose

CENTER PUNCH TOOLS

Strapbinder's tools for securing center punch clamps are durable, lightweight and easy to use.

HBC-300

Hand operated ratchet-action tool for 5/8" bands. Can be used with the HBC-032 adaptor for 3/8" bands.

F38

Hand operated, light duty ratchet style center punch clamp tool for both 3/8" and 5/8" bands. Its portable design makes it ideal for field repairs.

HBC-032 Adaptor

Easily inserted into the HBC-300 center punch tool for use with 3/8" wide band clamps.

Battery Powered Tensioning Tool

Part #800800

Battery Powered Center Punch Tensioning tool for 5/8" stainless steel and galvanized clamps. Single touch operation. Preset tension settings yield constant tension on each clamp applied.
